BRIEF ABSTRACT OF LETTER.

Forwards for orders ~~=~~ ~~letter~~ no: 4878 of 21. 3.11 from the Dy Commr Kolar Dist. re: opening a maternity Hospl at the Kolar Gold Fields and acqn of mrs Haji Ismail Saibs "Cornation Buildings for locating the mistn together with plans & estimates for acquiring the Cornation Buildings and effecting the necessary additions & alterations to adapt the same for the requirements of the Hospital.

NOTES AND ORDERS.

The plans stated to have been sent with the above have not been received.

2. The Kolar Gold Fields Mining Board have been long urging the necessity of a maternity Hospl at Robertsonpet. The question of opening the mistn

NOTES—First sheet.

has been deferred on financial grounds. In reg. ons: 2506-10 / Med 204-08-5 of 13.9.09 it was directed that the question should lie over for the present. In view of the pressing necessity of the case, the Kolar Gold Fields Sanitary Board have agreed to contribute a moiety of the cost of acquiring Mr. Haji Ismail Saib's buildings for locating the Maternity Hospl & of adapting the same for purposes of the Maternity and ~~included~~ a provn of Rs 20000 on that account [had accordingly been included] in the budget estimates of the Board for 1911-12 now before Govt. The ~~Board~~ Board are also prepared to ~~pay~~ pay the amount out of the closing balance ~~for~~ during the current year, if necessary. This necessitates an addl budget grant to the Board for the current year.

3. The buildings proposed to be acquired for locating the maternity are valued at Rs 19465 or Rs 20000 in round figures. The total cost of the additions and alterations, including that of new buildings to be erected is estimated at Rs 890 5/ ~~Rs~~ Thus a sum of Rs 19453 will have to be paid from the State funds on account of buildings. ~~Rs~~

× These are dealt with in L.B. Section

Submitted to His Highness.

31. These papers relate to the opening of a Maternity Hospital at Robertsonpet on the Kolar Gold Field, for which the Mining Board has been pressing for several years past.

2. There is at present a Female dispensary maintained by the Government, with a staff costing Rs. 259 per mensem. The dispensary has to be shifted from the existing site as the land belongs to the Mysore Mine and the heap of cyanide tailings is steadily approaching the building and will soon overwhelm it. It is proposed to acquire from Mr. Haji Ismail Sait the building known as the Coronation building and to improve and adapt it for the purposes of a Maternity Hospital at a cost of about Rs.39,000. The Sanitary Board of the Kolar Gold Field has very liberally agreed to bear half of this cost, and has provided a sum of Rs.20,000 in its budget for the current year.

3. The initial cost on account of bedding, furniture &c., amounts to Rs.3,100 and the recurring cost on account of establishment will be Rs.517 a month, or

just double the present cost. The Sanitary Board wants the Government to bear half the cost of the building and the whole of the initial and recurring expenditure.

4. In regard to the expenditure on account of establishment, the principle suggested in the note of the Assistant Secretary, Financial Branch, that Government should bear the cost of the professional staff and the local body the cost of the rest of the establishment seems to be fair. The distribution of cost would then be that Government pay Rs.202, and the Sanitary Board pay Rs.315. As however the Government is already paying Rs.259, which is half the total cost, we may say that half the cost of the establishment will be borne by Government, and that the remaining half should be borne by the Board. If the institution develops and we have later on to appoint a highly qualified lady doctor on a large salary, the principle referred to in the Financial Assistant Secretary's note may come into operation.

5. The First Councillor agrees to the establishment of the Hospital subject to the Sanitary Board being requested to reconsider their resolution about bearing a moiety of the establishment charges. The opening of the Hospital may be sanctioned, subject to the Board agreeing to bear half the cost of the building and half

the initial and recurring expenditure.

6. Early sanction is solicited as the subject will again be brought up at the Representative Assembly.

7. There is a provision of Rs.23,000 for this in the current year's State Budget.

Sir,

I have the honor to forward for the information × and orders of His Highness' Government, a letter No. 487 of 21st ultimo, from the Deputy Commissioner, Kolar District, with its enclosures, also certain plans referred to in these documents. As the final plan of alterations was not quite in accordance with my pencil sketch on the original ground plan of the Coronation building, I have now marked on it, here & there, the necessary points which require further attention from the Draughtsman; but as these are quite minor matters and can hardly at all affect the cost of the scheme, I have thought it better to send on to Government the final plan, more or less defaced though it be by my remarks, as the matter is one of urgency; and my entries on the plan will be helpful to a complete understanding of the project. I am of course strongly in favour of the Deputy Commissioner's proposal to make the necessary alterations in the Coronation Hall so as to fit it for a Maternity, and I feel that I can assure Government, that, when the alterations are effected, the Gold Fields will have quite a commodious and

1 pl: abstract
& 1 report.

From:

C. Sadasivachary Aiyar, Secretary, T.L., T.L.,

President, Sanitary Board, Kolar Gold Fields.

To

Lt. Col. J. Smith, M.D., I.M.S.,

Senior Surgeon to the Government of Mysore,

Bangalore.

Sir,

I have the honour to forward herewith copy of Resolution No. 11 dated the 27th January 1911, of the Kolar Gold Fields Sanitary Board, regarding the provision of a fit entrance to the Kolar Gold Fields, and to state as follows:-

2. The question of a fitting entrance to the Kolar Gold Fields is a most important one, and has engaged the attention of the Board for some time past. The Board have resolved to meet a part of the entire cost by acquiring Mr. Haji Ismail Sait's Coronation Building and converting them into a suitable entrance with needful alterations and additions &c, as approved of, and have accordingly provided Rs 20,000 in their next year's Budget to meet the said charge.

3. Now that this subject of great importance which has been pending for long time, has so far advanced, I forward herewith revised plans and estimates amounting to Rs 39,805, provide for all our immediate requirements and to request that you may be so good as to obtain the sanction of Government thereto as early as possible. The Board are also agreeable, if so required, to meet the whole cost of about Rs 20,000 out of their closing balance for the current year, and therefore desire that the work may be arranged to be started without further delay. It may either be possible to meet the whole payable by Government out of the current balance or anticipate receipts of the

(4

current year's D.P.V. Budget, or to provide for the same in their next year's Budget, as the work progresses with the Board's payment.

4. Matter being urgent, favor of early action is solicited.

I have the honor to be,

Sir,

Your most obedient servant,

C. Sri Kantaramaiya

President.

" C O P Y "

President, Sanitary Board,
Kolar Gold Fields.

SENIOR SURGEON & ... MYSORE GOVT. ✣ OFFICE OF
22 MAR 1911
BANGALORE.

Report to accompany the Modified Estimate for acquiring the "Coronation Building" at Robertsonpet and making necessary additions and alterations for converting it into a Maternity Hospital.

REPORT.

The building called the "Coronation Hall", belonging to Mr. Hajee Ismail Sait, is situated on an open ground opposite to the Staff Quarters of the Government Civil Hospital at Robertsonpet. In front of it Balaghat - Marikuppam road runs. The accompanying plan, No.1, snows its exact position and its enclosure.

2. The building has a big hall, two side rooms; two rear rooms and a verandah running all round, except in rear where it is separated by the corner rooms. The hall which measures 90 x 30, has got four large doors, two towards front and two towards rear, and six small ones facing the side and rear rooms, all provided with panelled double shutters. For admitting light and air there are six high windows having glazed and wooden shutters; and for the exit of heated air there are the same number of Ventilators at top with swinging ~~shshes~~. The side rooms are similar in ~~foxen~~ and each has a dimension of 14 x 30 are provided with a separate door towards front, other doors inside, two windows and

22 MAR 1911
GOVT. OFFICE

three Ventilators, of which one is circular The rear rooms also are equal in size, each measuring 26½ x 12½, and are provided with doors and windows. The plan No.2 shows in detail all these parts.

3. The walls of the building are of burnt stone in mud up to basement level, and burnt stone in mortar above. It has a high basement and an ornamental front, with chisel-draught masonry pillars in the verandah to support its roof. The flooring inside is of square tiles over concrete bed The front portion of the verandah has burnt stone flagging, the rest being paved with rough Cuddapa slabs. The roofing of the hall and side rooms is of second class Mangalore tiles resting on reepers fixed to teak and Home wood rafters and purlins laid across iron trusses placed 10 feet apart. The roof on either side ends in a gable. The verandah and rear rooms have a pent roof, consisting of the same kind of materials, with raised surfaces in front to form projections over steps.

4. The building is said to have been constructed during 1903. Owing to the nature of the soil on which it has been erected there has been slight settlement, and the verandah retaining wall has cracked badly here and there. The slabs tiles and other materials used to the building, with the exception of some, are not of the 1st

(6)

class, and replacement in places and repairs throughout are necessary. The valuation statement, prepared in accordance with each kind of work executed, represents fairly the value of the building and the ground. No deduction is made on account of the deterioration of materials as the actual cost is said to have been more, owing to much demand for skilled labour at that time.

5. It is proposed again to acquire this building and convert it into a Maternity hospital. For this purpose it is well suited, as it is airy and spacious and has enough space in rear for erecting out houses and quarters. The alterations and improvements required to make it suitable are shown in red on the Building plan, and these have been approved of by the Senior Surgeon.

6. It will be seen from it that the hall is proposed to be converted into Consulting Waiting and Dispensing rooms, with a Ward for Natives separated from the Gyncology ward by a partition wall and a small passage The side rooms will be altered and fitted up to serve as European and Eurasian ward and Operation Room. At right by running up partition walls in the verandah a labour ward will be formed with a bath room in it. Of the rear rooms, one will be reserved for high-caste patients attaching to it bath rooms and latrines, and the other will be

converted into necessary and clean linen rooms.

7. As regards the important items of work provided ~~for~~ in the estimate, the flooring throughout is rough and uneven, therefore, it will have to be completely removed using smooth Cuddapa slabs for wards, and tiles for the other portions. In verandah, the flagging of burnt and Cuddapa slabs hav to be removed and the whole floor re-done using one kind of slabs. The roof is covered with Mangalore tiles. But these have not been laid uniformly. Several are displaced and some are broken. It is necessary to remove and relay them. To make the rooms comfortable and prevent sprinkling in of rain water during monsoons plaster to the ceiling is provided. The other items connected with alterations, such as raising partition walls, fixing doors and ventilators, painting etc, do not call for remarks.

8. The new Buildings proposed to be erected for the use of the Hospital and the staff attached to it are ~~as follows~~:-

(1) Wards for Infectious patients,
(2) Store Room and washing place,
(3) Kitchen
(4) Servants' Quarters.

These are proposed to be of the designs shown on the accompanying drawings. They will be "pucca" having Mangalore tile and Cuddapa slab floorings, with roofs of 1st class Mangalore tiles over steel joists

(10)

and iron reepers. The enclosed estimates furnish in full the details connected with these buildings.

9. The estimated cost of the project, at the rates prevailing on the Kolar Gold Fields, is as follows:-

Value of the Building.....	Rs.20,000
Improvements & alterations including Water supply Bath room fittings etc.	Rs. 8,532
Wards for Infectious patients.....	Rs. 2,818
Store Room & washing place.	Rs. 1,262
Kitchen.....	Rs. 2,783
Servants Quarters.....	Rs. 3,510
Total	Rs.38,905

Letter No.636 dated 22nd June 1911 from the President, Sanitary Board, Kolar Gold Fields, to the Offg Senior Surgeon to the Govt of Mysore.

- - -

Adverting to your letters Nos.5396 dated the 3rd May 1911 and 5661 dated the 17th idem, enquiring whether the Kolar Gold Fields Sanitary Board will be prepared to contribute towards the initial and recurring expenditure of furniture, bedding and clothing, establishment &c., of the proposed Maternity on the Kolar Gold Fields, I have the honor to state that the subject was discussed informally at the last meeting of the Board, when they were unanimously of the opinion that the proposal could not be conveniently met either on principle or on financial grounds. The Board have already agreed to incur a very heavy expenditure on the establishment of the Maternity by signifying to meet the moiety of the cost of the purchase of and alterations to the Coronation building, which reduces their funds to a considerable extent to the detriment of other important and immediate calls of vital necessity to the Fields.

2. In addition to be prepared to incur such a heavy outlay, the Board feel constrained to remark that it would be very hard indeed to expect them to meet any other charges on an institution of philanthropy, which moreover is meant to serve the purposes of not only the local area comprised within the Board's limits but practically for the benefit of the entire community of the Fields and the surrounding parts with a floating population of nearly a lac which should be more or less a provincial concern. Moreover, the present Female Dispensary at the Fields costing a recurring expenditure of Rs 3,100 on establishments, in addition to the outlay on medicines etc., is being maintained entirely from provincial funds, and I have had the list submitted by the District Medical Officer, Dr. M. Jagannatham Pillay, thoroughly revised by him after mature discussion and consultation with me, according to which, the cost of establishment for the proposed

Maternity

(16)

Maternity would be Rs 6,200 per annum or only Rs 3,100 in excess of the present cost. The initial outlay on furniture bedding and clothing comes to only Rs 3,100 and the other recurring expenditure on medicines, dietary charges &c., cannot be very much in excess of what is being incurred now.

3. The outlay on the whole being thus moderate, compared to the immense beneficial value to the whole of the Kolar Gold Fields, I am to request that Government may be moved to meet the same from the Provincial Medical Budget as has been the case both with the General Hospital and the present Female Dispensary, the Board with their meagre resources having so many other Sanitary and emergent calls to meet.

4. I am also to request that this matter which has long been urged for, may be very kindly treated as most urgent and pressing, and early orders obtained for the opening of the Maternity from at least the beginning of the next official year.

5. The revised lists of initial and recurring expenditure on the Maternity are herewith submitted for information.
